To ignite curiosity in every child we are patronising the principle of 5 A's –aim, action, analysis, application and assessment which enables the students of Vijetha to learn, by doing and reflecting through visuals, reading and observing phenomena.

Our learning practices focus on quality and depth of knowledge, reduces memorization and rote learning and promotes questioning, application through hands on experiences.

To emphasize core development areas of a child viz. language, mathematical, physical, creative knowledge and understanding of the world we are following XSEED books for class PP1, PPII and I to V classes.
